### BOLD JOURNEY

**Let's take a small detour – maybe you can share a bit about yourself before we dive back into some of the other questions we had for you?**

In a nutshell, I am an Artist through and through. I am a full time singer and open-format DJ that specializes in Corporate Events, Weddings, and Private Soirees but am available for any and all events deserving of a celebration. Recently, I decided to incorporate my singing with the DJ aspect of my business to create a unique crowd-engaging experience.

The most exciting part of my journey has been mashing up classic songs with today's hits to inspire a sense of nostalgia in the crowd. Remembering where you were and who you were with when you first heard a favorite song can be one of the most beautiful feelings. And what better way than to communicate that feeling than through music.

**What matters most to you?**

What matters most to me is the hunger for knowledge, empathy, and humility. In many ways, they all work hand in hand with each other in that I believe one cannot be successfully practiced without the other two.

A person cannot be considered humble if they are unwilling to learn that which they do not already know. And in retrospect, it is nearly impossible to gain knowledge if you are unable or unwilling to practice empathy towards the teacher.
